PROFESSIONAL SUMMARY

Detail-oriented UI/UX Designer with a passion for crafting intuitive, visually engaging experiences across web and mobile platforms. Skilled in turning ideas into polished wireframes, designs, and interactive prototypes using Figma. Eager to contribute to an innovative team that values creativity, collaboration, and continuous improvement.

EXPERIENCE

UI/UX Designer – Power Brains Pvt. Ltd. **Jan 2026 – Present**

- Design end-to-end UI/UX for the company's ERP software across web and mobile, including the HRM, CRM, SFA, and ESS modules.
- Create complete design deliverables: wireframes, user flows, high-fidelity designs, and interactive prototypes in Figma.
- Redesign login pages, dashboards, and home screens to improve usability and navigation consistency.
- Work with developers on design handoff and perform quality checks (QC) so the final product matches the design.
- Contribute to mobile app projects including the B2B E-Commerce app, PB Smart App, and Car Service app.
- Manage design tasks and track progress using Jira.

UI/UX Design Intern – Power Brains Pvt. Ltd. **Sep 2025 – Dec 2025**

- Designed web and mobile interfaces for ERP modules (HRM, CRM, ESS) using Figma.
- Created wireframes and reusable UI components, and supported deployment through QC.
- Converted to a full-time role after completing the internship.

PROJECTS

Power Brains ERP System (Web & Mobile)

- Designed the complete UI/UX for HRM, CRM, SFA, and ESS modules on both web and mobile. Delivered wireframes, dashboards, workflows, and prototypes for admins and employees.

B2B E-Commerce Mobile App

- Designed the dealer and admin experience, covering core shopping flows and admin management, with iterative improvements based on feedback.

PB Smart App & Car Service App

- Designed mobile app interfaces, including home screens and key user flows.
